

KwangShin

KwangShin CNG Compressor

- 흡입압력 : 0~200 bar
- 토출압력 : 250~350 bar
- 처리용량 : 700~2,500 m³/hr
- 소요동력 : 175~300 Hp
- 구동기형식 : Motor / Gas Engine
- 구동기와 압축기는 직결 형태
- Horizontal Balance Type Compressor Design
- Air Cooled/Water Cooled Type Heat Exchanger

GEO-B

MOTOR/ENGINE DRIVEN

- Suitable for bus and large public fueling stations
- Motor power from 175Hp to 250Hp
- Variable inlet pressure
- Compressor with force feed Lub. System
- Electric motor or engine driven
- Air or water cooled heat exchanger
- Pneumatic or gas Controlled Purge System

• Number of throws	1/2
• Stroke (mm)	75
• RPM (max)	1,800
• Piston Speed (m/s)	4.5
• Hp / Throw	125
• Rod Load (kg)	6,800
• Main Diameter (mm)	110
• Rod Diameter (mm)	40
• Crank Shaft	Forged Steel
• Connecting Rod	Forged Steel
• Cross Head	Cast Steel
